

**Reduce, Reuse, Recycle Restaurant Leader:**

# Signal Mountain Lodge Restaurants: The Peaks, The Trapper Grill, Leek's Pizzeria

**Green Recognition**  
Green Restaurant Association  
member since 2003. All three of the  
Lodge restaurants were the first in  
Wyoming to achieve certification by  
the Green Restaurant Association.

Jackson Hole, Wyoming

“Signal Mountain Lodge has made it a policy to incorporate environmental awareness and sustainability into the very fabric of all of its business practices,” says Kieran Gallagher, Director of Resort Operations. “This is exemplified by the commitment that we have made to these practices in the restaurants at SML. We follow a green purchasing policy that influences how our restaurants buy food, napkins, light bulbs and even electrical power. Signal Mountain Lodge recognizes its developing role as a leader in sustainable and environmentally aware practices. Together, we can make Signal Mountain Lodge and Grand Teton National Park a shining example of how conservation and recycling can work toward a better tomorrow.”
